

EXTERNAL RESOURCES

The ECC has developed a great collaboration with the “CISSSO” (CLCS), the “Pavillon du Parc” and La Ressource.

The workers at the Pavillon du Parc and La Ressource can provide support to children who need it as well as to parents and staff who work with them.

We regularly work in collaboration with workers from the CISSSO who are very present in our facilities according to the needs of the children. All focus on families with children 0-5 years old

What is a psychoeducator?

She supports families and children who have various adaptation difficulties: adaptation to a birth, behavioral problems, aggressiveness, loss of autonomy, developmental delay, separation anxiety, etc.

What is a speech therapist?

She detects, assesses and re-educates children with communication disorders.
