

PROFESSIONAL PHOTO TAKING AT THE ECC

Following:

- The experience of taking pictures by an outside professional for several years;
- The responses received in previous surveys to parents;
- The difficult impacts and logistics experienced by employees: limited space and premises, tight schedule (morning nap for little ones, late parents, children who need to go outside but have to keep their clothes clean , etc...) individual requirements of parents (placed hair in such a way, put on such accessory, change clothes, etc...

It was decided that we would stop this practice. Instead, a group photo would be taken at the start of the year and each child and staff member would have a 4X6 copy.
