

## **DISINFECTION AND MAINTENANCE OF PREMISES**

At the end of the day the parents must take the children's personal things in their children's locker, this will help with the clean-up at night. This goes for boots and/or clothing, artwork, toys, etc...

Be sure every second Friday that you bring your child's blanket home to wash, this will be sent home in the orange bag with their extra clothes, please verify to make sure they still fit and are for the appropriate season.

During rest time, the educators must follow the "Cleaning check list" for the cleaning and disinfecting.

At the end of each day the educators must do what is needed to facilitate the cleaner's job in the evening. Such as: clean counter tops, lift chairs and /or toys, etc....

After hours, the person responsible for the cleaning must follow the "Cleaning check list" for the cleaning and disinfecting.

When decorating, do not use push pins, tape or other sticky items that may damage the paint. However, sticky tack is preferred, hanging track, bulletin boards, Velcro where there will always be a poster hung or as mentioned above hooks for hanging plants using fishing line.
