

EXTERNAL RESOURCES

The ECC collaborates closely with **CISSSO (CLSC)**, **Pavillon du Parc** and **La Ressource**.

Professionals from Pavillon du Parc and La Ressource can support children who need help, as well as the parents and staff who work with them.

We also work regularly with specialists from CISSSO, who are present in our facility as children's needs require. All these partners focus on families with children aged 0–5 years.

What is a psycho-educator?

A psycho-educator supports families and children facing various adaptation challenges: adjusting to a new baby, behavioural problems, aggressiveness, loss of autonomy, developmental delay, separation anxiety, and so on.

What is a speech-language pathologist?

A speech-language pathologist screens, assesses and treats children who have communication disorders.
